RESPONSE TO RESTRICTION

Dear Sir:

This response to restriction is in reply to the Office Action dated March 23, 2007 for which a one month or 30 day period for response (whichever is longer) was given.

Applicant understands that they are required under 35 USC §121 to make an election of an invention to be examined. Within the Office Action, restriction to one of the following inventions is required:

I. Claims 1-40, drawn to a composition/food product, classified in class 426, subclass 634.

II. Claims 41-49, drawn to a method of making a soy protein material, classified in class 426, subclass 656.

Applicant elects the claims of Group I, (claims 1-40). This election is made with traverse since both groups of claims are classified in the same class and as such, an undue search is not being made.

In the event the Examiner finds minor issues within this case remain unresolved, the Examiner is respectfully requested to contact the undersigned to arrange for an interview to expedite the disposition of this application.

If any additional fees are due in connection with the filing of this document, the Commissioner is authorized to charge those fees to our Deposit Account No. 50-0421.

Respectfully submitted,

Solae LLC
